

Table 1. Catch and assessment indicators until the end of Jun in the 2019-20 Fishing Period. Assessment data compares standardised values over the last 6 months of the year, to the same 6 months a year before. Catch plan targets recommended by the TAC Committee are shown for each SMU, with Industry targets for each Area. Areas coloured green are more than 20% behind planned target, while red Areas are more than 20% ahead of target.

Area	2015	2016	2017	2018	H1 2019	2019-20		Assessment data	
	Catch (t)	Catch (t)	Catch (t)	Catch (t)	Catch (t)	Catch (t)	Targets (full year)	Catch rate	Mean size
